ics

materiali della tradizione e *mix* di tecnologia... mai pop

e-memo

**attraverso la
lavorazione
artigianale
dei vetri, ics
apparecchio
a sospensione,
sdogana una
tradizione
stilistica che
rischiava l'oblio,
concedendole
eleganza e
modernità. Il
materiale naturale
abbinato allo stile
armonioso dei
globi.**

*through the
craftsmanship of the
glass, ics pendant
luminaire, release a
stylistic tradition that
risked oblivion, granting
it elegance and
modernity. the natural
material combined with
the harmonious style of
the globes.*

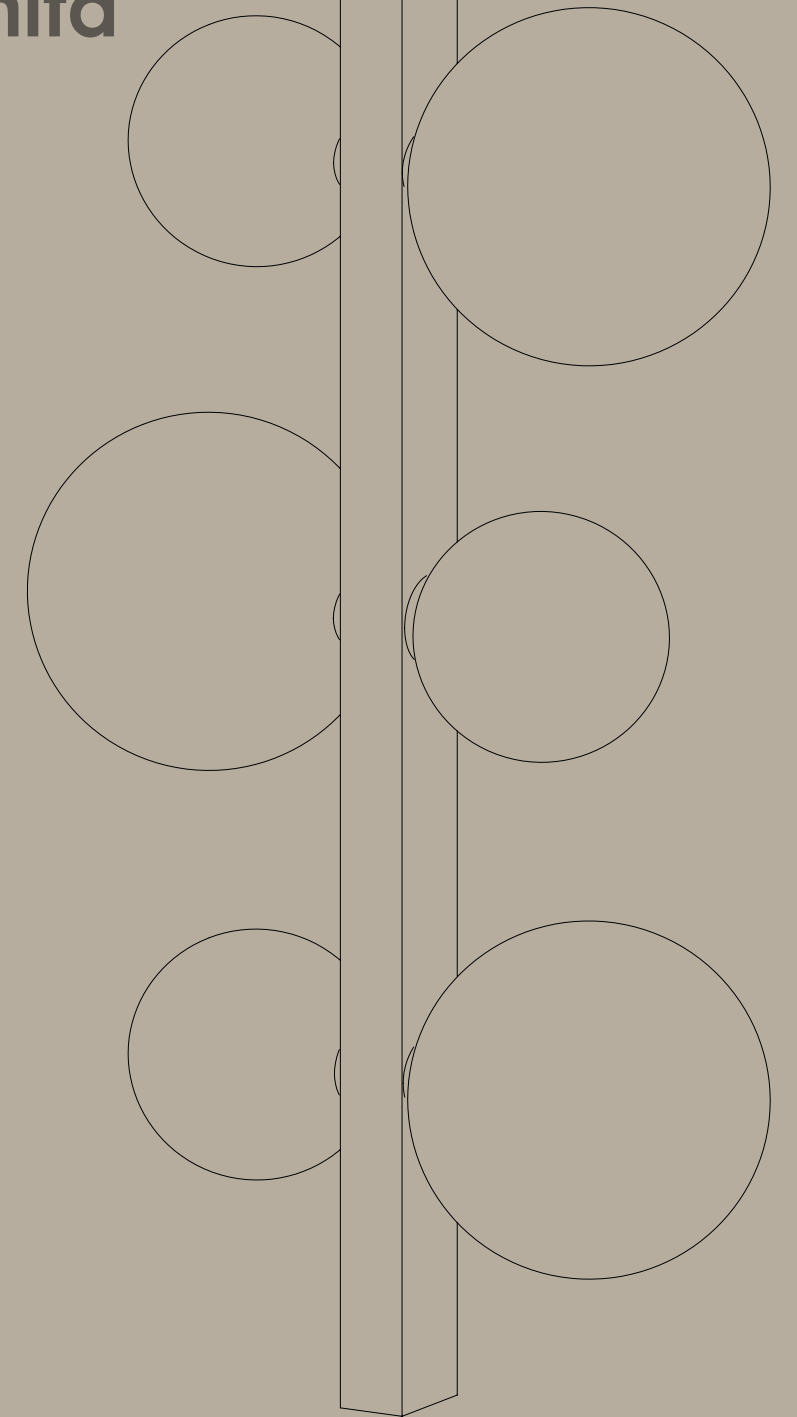

eleganza e modernità

elegance and modernity

**sfere di vetro
soffiato,
apparentemente
sospese nel vuoto,
in verticale o
orizzontale, restano
ben ancorate alla
struttura metallica,
una lampada da
sospensione per
illuminare gli spazi
con nuove forme
geometriche.
abbiamo pensato
alla sfera, da
sempre forma
elementare ed
armonica.**

*blown glass spheres,
apparently suspended
in the void, vertically or
horizontally, remain well
anchored to the metal
structure, a suspension
lamp to illuminate
spaces with new
geometric shapes. we
thought of the sphere,
which has always been
an elementary and
harmonic form.*

tradizione e innovazione

tradition and innovation

la luce nei suoi concetti di base, nei suoi aspetti funzionali e tecnologici, ma al tempo stesso in quelli emozionali e suggestivi. un progetto nel quale spariscono i confini tra tecnica, arte, architettura e design. ics, lampada da soffitto, la tradizione diventa innovazione.

light in its basic concepts, in its functional and technological aspects, but at the same time in the emotional and suggestive ones. a project in which the boundaries between technique, art, architecture and design disappear. ics, ceiling lamp, tradition becomes innovation.

quando si definisce la luce in un progetto, non solo si cambia l'aspetto di un ambiente, ma lo si rende anche più confortevole. il miglior risultato si ottiene abbinando l'uso della luce a quello progettuale, definire l'uso della stanza, il tipo di illuminazione che serve, la sua posizione e l'atmosfera che si vuole creare. ics, apparecchio per illuminazione da parete soddisfa a pieno tutte le esigenze.

when you define light in a project, you not only change the look of a room, but it also makes it more comfortable. the best result is obtained by combining the use of light with the design, defining the use of the room, the type of lighting you need, its position and the atmosphere you want to create. ics, wall lighting fixture fully satisfies all needs.

illuminazione e design estetico dell'oggetto non vanno legati ad una moda a breve termine, ciò che risiede nella nostra filosofia di progettazione di tutti i giorni perché punto di incontro tra pensiero, forma e materiali naturali. in questa direzione nasce la lampada da parete ics con sorgente led integrata o con diffusore globo opale.

lighting and aesthetic design of the object should not be linked to short-term fashion, this concept resides in our everyday design philosophy because it is a meeting point between thought, shape and natural materials. ics wall luminaire with integrated led source or opal globe diffuser was born in this direction.

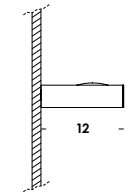

ics è un apparecchio a parete, pavimento, soffitto e a sospensione regolabile in altezza su cavi di tenuta in acciaio. struttura in alluminio o ottone. finiture verniciato o ottone grezzo. diffusore in vetro soffiato bianco-latte triplex o trasparente. lampada led inclusa. versione a parete disponibile anche con modulo led dimmerabile da remoto.

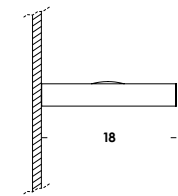

ics is a wall, floor, ceiling and suspension luminaire adjustable in height on iron wires. structure in aluminum or brass. finishes painted or raw brass. diffuser in blown glass opal triplex or clear. led lamp included. wall version available with remotely dimmable led module.
