t.30

un filamento e la sua luce
...un gesto puro

e-memo

t.30 ridefinisce il rapporto tra luce e spazio e il filamento puro del solo led disegna sofisticate atmosfere per ambienti contemporanei e non.

t.30 redefines the relationship between light and space, and the pure filament of the led alone creates sophisticated atmospheres for both contemporary and non-contemporary settings.

un sottile filamento led diventa protagonista assoluto. t.30 propone in modo radicale il rapporto tra luce e spazio: un segno luminoso verticale, essenziale e preciso che attraversa lo spazio con naturalezza. l'apparecchio nasce da un processo di sottrazione di ogni elemento superfluo e trasforma la luce in un gesto puro.

a thin led filament becomes the absolute protagonist. t.30 is a proposal that radically interprets the relationship between light and space: a vertical, essential, and precise luminous sign that naturally traverses the space. The fixture is born from a process of subtraction, eliminating every superfluous element and transforming light into a pure gesture.

si inserisce con coerenza in contesti residenziali e pubblici per la sua presenza discreta, riconoscibile, identificativa. arricchisce con la leggerezza della sua filiforme *silhouette*, valorizza la continuità luminosa e crea un'atmosfera capace di dialogare con l'architettura senza imporsi.

it integrates seamlessly into both residential and public environments thanks to its discreet yet recognizable and distinctive presence. It enhances spaces with the lightness of its slender silhouette and emphasizes luminous continuity, generating an atmosphere capable of dialoguing with architecture without overpowering it.
