

Vesoi

l'ufficio / office

vesoi è specializzata nella progettazione, sviluppo e produzione di apparecchi per l'illuminazione architettonale-decorativa... una tradizione fondata quarant'anni fa da mario de rosa. dall'esperienza nella lavorazione del vetro soffiato vesoi si è evoluta nel tempo oggi un punto di riferimento nella luce contemporanea coniugando cultura del progetto con la ricerca tecnologica e produzione interamente italiana.

la qualità della luce in ambienti di lavoro e spazi collettivi è un elemento fondamentale per il benessere, la concentrazione e l'efficienza visiva. un basso valore di UGR (*Unified Glare Rating*) contribuisce a ridurre l'abbagliamento migliorando il *comfort* percettivo e garantendo condizioni luminose conformi.

la selezione di apparecchi UGR CONTROLLED di vesoi nasce per offrire il giusto equilibrio tra prestazioni illuminotecniche, qualità formale e flessibilità applicativa. parete, soffitto, sospensione o incasso, sono disponibili con sorgenti *led* ad alta efficienza e sistemi di controllo compatibili DALI *push*. apparecchi progettati per integrarsi con l'architettura e definire spazi efficienti, confortevoli ed equilibrati.

vesoi specialises in the design, development and manufacture of architectural and decorative lighting luminaires - a tradition established over forty years ago by mario de rosa. building on its expertise in blown glass craftsmanship, vesoi has evolved over time to become a reference point in contemporary lighting, combining design culture with technological research and entirely italian production.

the quality of light in workplaces and collective spaces is fundamental to well-being, concentration and visual efficiency. a low UGR (Unified Glare Rating) helps reduce glare, enhancing visual comfort and ensuring compliant lighting conditions. vesoi's selection of UGR CONTROLLED fixtures is designed to achieve the right balance between lighting performance, formal quality and application flexibility. available in wall, ceiling, suspension and recessed-mounted versions, the range features high-efficiency led sources and DALI push compatible control systems. fixtures designed to integrate seamlessly with architecture, creating efficient, comfortable and well-balanced spaces.
